

MASTER TECHNICIAN'S TOOLBOX

Imagine being able to plug your classroom computers directly into a Master Technician's Toolbox...filled with powerful and dynamic technical content for your program area. Perhaps, fill it with content from several program areas. You can use the Master Technician's Toolbox as a resource for any technical skills classroom. Fill it with self-paced quality interactive video content to match your program. This resource will allow fast students to move ahead and slower students to catch up, all the while engaging and motivating the learner.

Plug in your existing computers and let the learning begin.

These broadcast quality video-based interactive courses are always a hit with students. Complete with interactions to engage the learner and quizzes to insure an understanding of course material. All systems include a powerful Learning Management System (LMS) to control and to report on your classroom operations.

CONTENT AREAS

AUTOMOTIVE

Understanding Automotive Technology (5 courses), Advanced Fuel Injection Systems, Automatic Transmissions, Manual Transmissions, Air Conditioning, Anti-Lock Brake Systems, ASE Test Prep (3 courses), Brake Systems. Suspension and Steering (2 courses), Batteries Starting and Charging Systems (3 courses), Auto Collision and Repair (4 courses), Collision Repair Technology (4 courses), Electricity and Electronics (2 courses). Emissions (2 courses), Engine Overhaul (2 courses), Engine Performance (4 courses), Engine Diagnosis & Cooling Systems (2 courses), Refinishing (3 courses), Safety Systems (2 courses), Automotive Jobs, Drivability Troubleshooting (2 courses), Electronics for the Auto Technician (2 courses), Medium/HD Truck ASE Prep (3 courses), Supplemental Restraint Systems, ODB II

ELECTRICITY

Basic Electricity: DC, AC Theory, DC Theory, Single-Phase Circuits & Electrical Machines, Three-Phase Circuits & Electrical Machines

BUILDING TRADES

Basic House Framing, Residential Wiring, Residential Electrical Wiring (2 courses), RCA Carpentry (2 courses), RCA Electrical Principles (2 courses), National Electric Code (2 courses),

HVAC

Electricity for Refrigeration Heating and Air Conditioning (3 courses)

HVAC-R Service Calls (3 courses)

DRAFTING & DESIGN

Architectural Drafting and Design (2 courses), Engineering Drawing and Design (2 courses),

DENTAL ASSISTING

WELDING

Arc Welding, Flux Cored Arc Welding, Oxyacetylene Welding, Gas Metal Arc Welding, Shielded Metal Arc Welding

GENERAL

Blueprint Reading, Fluid Power, Reading a Ruler, Small Engine Maintenance and Repair, Basic Firefighting (2 courses)

NEW AND DISPLACED WORKERS

Resume Writing, Workplace Communications, Entering the World of Work, Finding your Way in the Working World

The Master Technician's Toolbox is based on a powerful SNAP Server. Plug into your existing network and access it from anywhere.
